PIETRA MANIPULATION - LANDSCAPE ARCHITECTURE

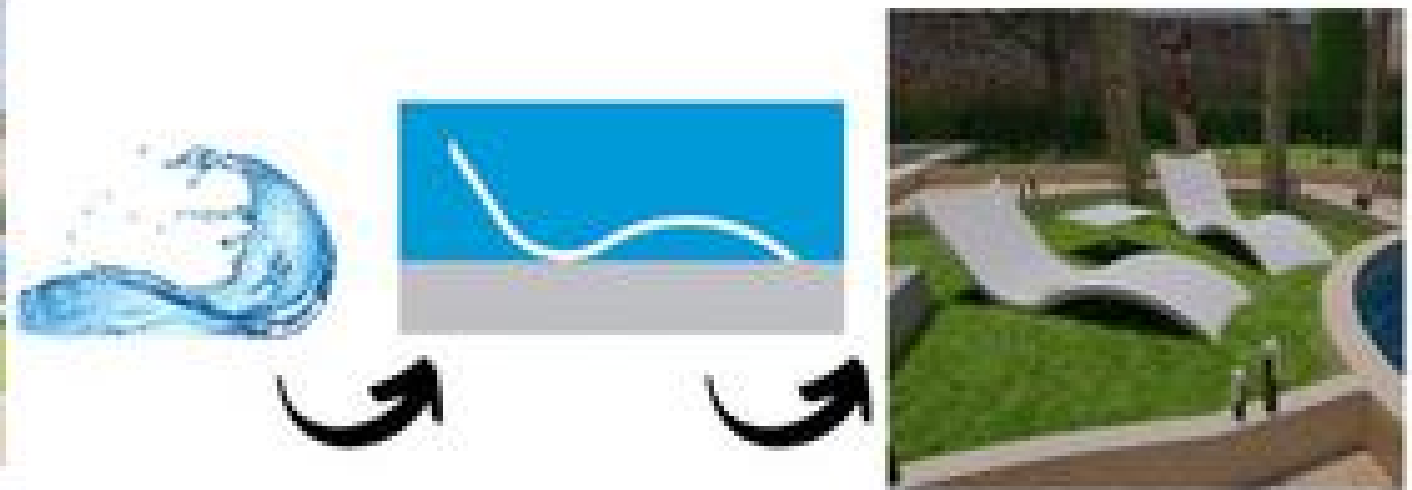

"Pietra" translates to 'stone' in Italian language. Stone is a key material used in the Tuscan themed landscape designs. Therefore, since I've manipulated the material and used it in different areas throughout my design, I chose the name "Pietra Manipulation". Alongside, tuscan I've incorporated a few features of the modern landscape theme such as the clutter free, straight and curved lines etc.

DESIGN DEVELOPMENT

ARCH DESIGN

SUN CHAIR DESIGN

WATER INSTALLATION DESIGN

CONCEPT SHEET

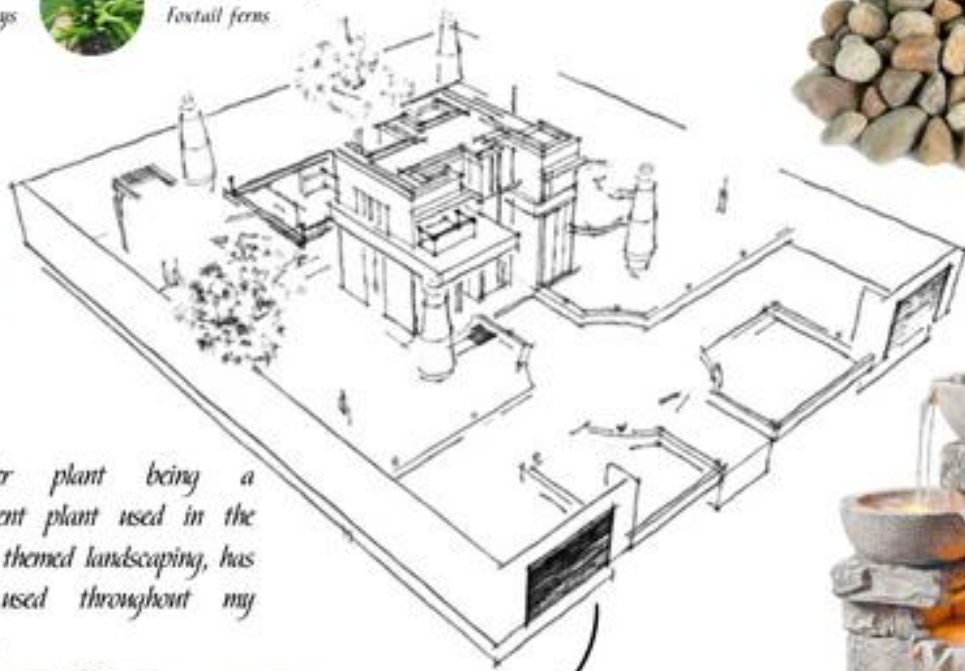

Therefore, for my landscape project I've decided to use a fusion of both tuscan and modern style landscaping and tried to blend it together and bring it to harmony so that the overall design shows the best features of both the styles.

- Stone
- Oak Wood
- Limestone
- Paved Pathways
- Italian cypress
- Boxed Hedges
- Lavender
- Foxtail ferns

Lavender plant being a prominent plant used in the tuscan themed landscaping, has been used throughout my design.

According to my concept of manipulation of stones, here in this water installation, I used the base material stone.

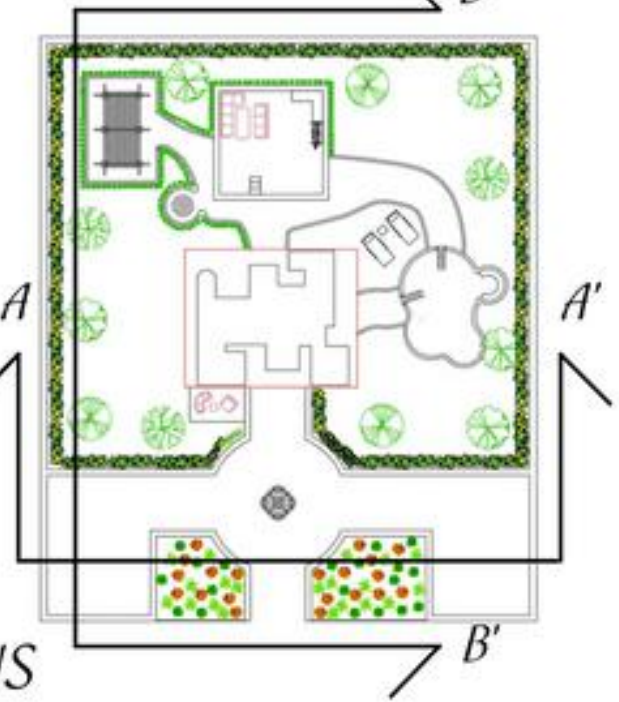

SECTIONS

SECTIONAL ELEVATION AA'

SECTIONAL ELEVATION BB'

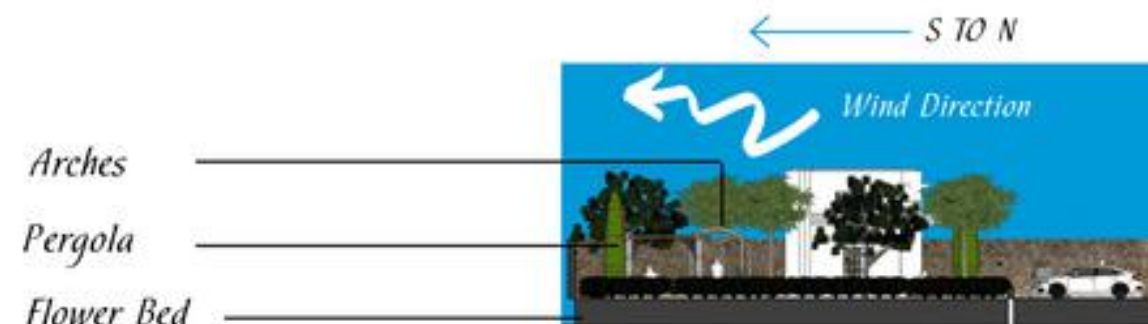

ELEVATIONS

FRONT ELEVATION

- Italian Tree
- Lavender
- Top Soil

LEFT ELEVATION

- Arches
- Pergola
- Flower Bed

BLOW UP

Pergola made of reclaimed wood

Below-ground level Barbeque area with furniture made of wicker material to protect from rainfalls etc.

Arch made up of stone

View of the landscape area

curved organic shaped swimming pools

Patio made of reclaimed oak wood

Earthy toned Stone pathways

3D VIEWS

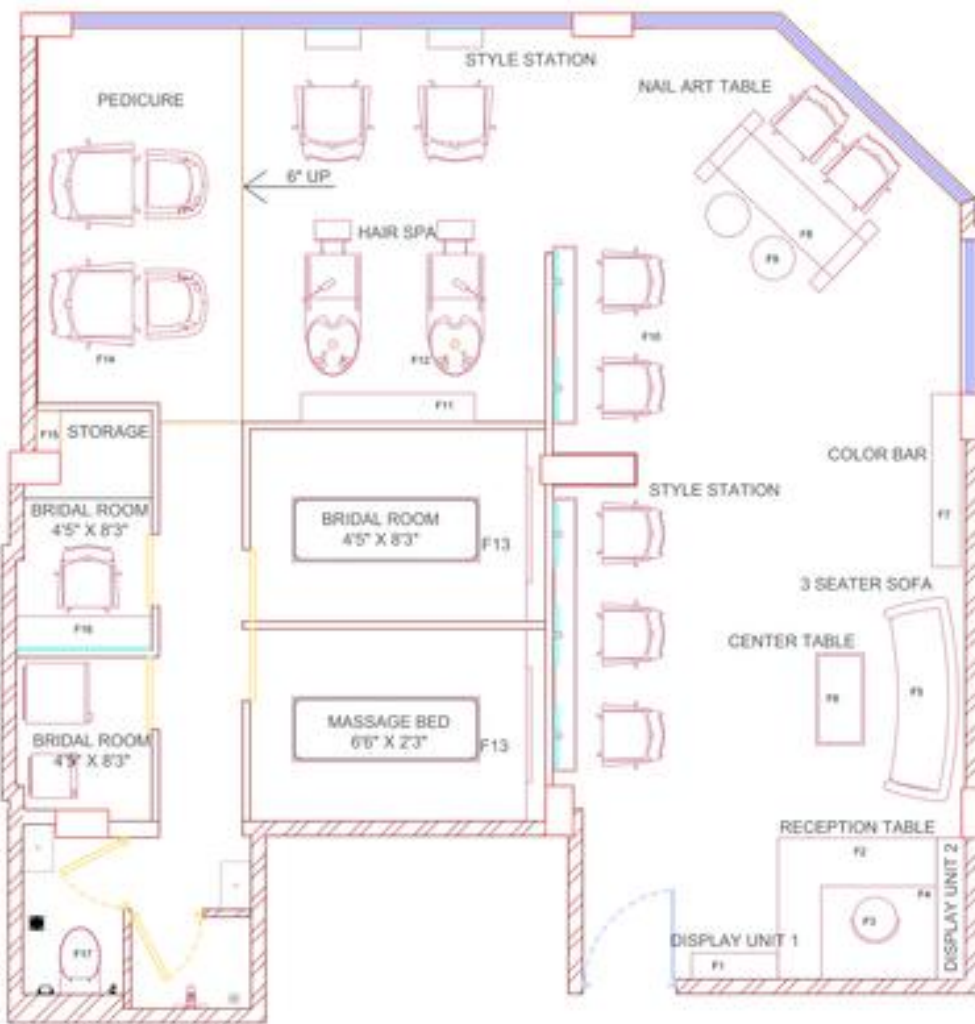

Therefore, for my landscape project I've decided to use a fusion of both tuscan and modern style landscaping and tried to blend it together and bring it to harmony so that the overall design shows the best features of both the styles.
